

Defense Federal Acquisition Regulation Supplement – DFARS

1/30/2026

For specialty material as described in Section 252.225-7008 to follow the Defense Federal Acquisition Regulation Supplement also known as DFARS, “any specialty metal delivered under this contract shall be melted or produced in the United States or its outlying areas”. Specialty metal in this section is outlined as either steel or metal alloys including nickel, iron-nickel, cobalt, titanium, or zirconium alloys. These are defined further in the above listed section under subsection I through IV.

Or

For specialty material as described in Section 252.225-7009 section (b) Restriction. Except as provided in paragraph (c) of this clause, any specialty metals incorporated in items delivered under this contract shall be melted or produced in the United States, its outlying areas, or a qualifying country.

In addition, metals may be supplied from foreign acquisition under Subpart 225.8 – <i>Other International Agreements and Coordination</i> , Section 225.872-1. Subsection a.) & b.) allows ...acquisition of qualifying country end products from the following qualifying countries: Austria* Australia Belgium Canada	Czech Republic Denmark Egypt Estonia Federal Republic of Germany Finland France Greece Israel Italy Japan Latvia	Lithuania Luxembourg Netherlands Norway Poland Portugal Slovenia Spain Sweden Switzerland Turkey United Kingdom of Great Britain and Northern Ireland
--	---	--

*Individual acquisitions of qualifying country end products from the above qualifying country may, on a purchase-by-purchase basis (see 225.872-4), be exempted from application of the Buy American statute and the Balance of Payments Program as inconsistent with the public interest. This information is from: <https://www.acq.osd.mil/dpap/dars/dfars/html/current/225.8.htm#225.872-1>, revised December 18, 2024.

The DFARS compliance statement is part of the Corrosion Materials internal ordering specifications.

Material in stock is ordered to meet DFARS, but the mill test reports should be reviewed to confirm. A certificate of conformance on CMI letterhead along with the appropriate signatures can be drafted in the event the material MTR does not include a DFARS statement; given the material complies.

Please contact your Corrosion Materials representative if there are any questions.

Respectfully

Jacob Rodriguez
